

MBSCC & MCC Inc. Catch Fence Upgrade Project 2024

To ensure racing can continue at Murray Bridge Speedway, the club is required to upgrade the existing catch fence by replacing the 166 existing poles, fence and wire. The fence needs to be replaced prior to the 2024/2025 racing season.

This replacement comes at a significant cost to the club, particularly following the decision to replace the track, pits and walkway lighting to LED lights.

As a club we would like to introduce a fundraising initiative – the 'BUY-A-POLE PROJECT'; where we ask the supporters of our club to assist with the costs of the fence and it's installation by contributing via donations to this project.

Donations start at \$250.00. A tax invoice can be provided if specifically requested. Please tick the box on the attached payment form for one to be emailed to you if required.

Individuals, groups of friends and businesses can all donate with all parties being recognised on a plaque near the clubhouse.

The plaque will recognise those who also provide larger donations:

Platinum Supporter – 20 Poles or more

Gold Supporter – 10-19 Poles

Silver Supporter – 5-9 Poles

Bronze Supporter 1-4 Poles

We are transitioning banks from Westpac to NAB Australia, so please note the new banking details listed on the form.

Please note: If the 'Buy-A-Pole Project' exceeds expectations (and fence post numbers), then the excess funds will be applied to the fence installation and other componentry required for this project. Everyone who does donate will be recognised on the plaque.

To purchase a pole/poles – please email: administration@murraybridgespeedwayclub.org.au with the attached payment document completed where applicable.
